The 3 Dot Red Dot Crossbow Sight offers shooters from the novice level (just getting started) to the experienced shooter a high quality option at a great value. The 3 Dot Red Dot features a 3 Dot vertical pattern that allows the user to sight in the top dot at their closest range, and in addition gain two more sighting points at yardages that will be determined by the speed of the bow and arrow weight. A typical sighting might be 20, 30, and 40 yards. Includes weaver style mounting hardware and multiple sighting distances. Adjustable brightness via numbered rheostat.
